College of Social Innovation
Rangsit University

Master of Arts in Leadership in Society, Business and Politics (Online English Program)

The College of Social Innovation, Rangsit University (CSI) is pleased to announce the Master of Arts Program in Leadership in Society, Business and Politics, as an online english program of study.

This M.A. program is an international collaboration between CSI and ZiTA gGmbH.

It combines educational innovation, resources and capabilities to provide cutting-edge interdisciplinary social science with the focus on transcontinental, intercultural and comparative economics, social innovation and management with global leadership and world citizenship perspectives.

COLLABORATION between Rangsit University and ZiT World Campus

The M.A. Online English Program in Leadership in Society, Business and Politics is jointly organized as part of the cooperation between ZiT World Campus Berlin gGmbH, a German non-profit association, and Rangsit University College of Social Innovation, Thailand. In combining resources and capabilities RSU and ZiT hope to become part of an emerging "World Citizen Campus."

The cooperation has been initiated in 2019 by well known former Professor of the Free University Berlin, Prof. em. Dr. Juergen Zimmer. He was impressed by the progressive approach and excellent concept of RSU/CSI and their contribution to cultural enrichment and scientific progress.

The interdisciplinary, social science M.A. program, carried out by a team of professors with many years of experience in the field, connects the lines of tradition in an innovative manner. The aim is to make students familiar with the whole spectrum of the leadership discourse, thereby opening the greatest possible range of professional options and perspectives.

With the Master of Arts degree, South East Asian and European students have not only received unique educational experience for a global career path but are also equipped with knowledge and skills and in demand as competent global players from all dimensions.

Key Objectives

- To provide graduates with the knowledge, understanding and skills necessary for leaders in society, business and political contexts amidst global socio-political challenges;
- To equip graduates with a broad depth of knowledge in leadership innovation for sustainable peace.

"In a rapidly changing world, deep insights and outlooks are essential in building cross cultural bridges between Asia and Europe which has been my mission for decades. The New Normal offers opportunities and challenges for which we want to prepare and enable you to make a difference."
